## CPU600

Boasting tool-free installation and a sleek silhouette, the CPU600 offers convenient ergonomic access to ports and drives, and time-saving installation and removal for quick hardware upgrades and repairs. The under-desk track mount with 360-degree swivel provides easy CPU access while also protecting the unit from dirt, vacuums and other workplace hazards. Made predominantly of steel and 100% recycled aluminum, and containing 51% recycled content by weight, the CPU600 is 100% recyclable.

A highly ergonomic work environment is built around four primary tools—task chair, articulating keyboard/mouse support, adjustable monitor arm and task light—that work together to improve the health and comfort of computer users. The absence of any one of these four tools may impact the ergonomic benefits of the others, whereas additional components, such as CPU holders, can further improve the workstation's ergonomics. To better understand how the ergonomics leader can dramatically improve your workday with the right assess-ments, tools and training, contact your Humanscale representative.

## CPU555

The CPU555 is the sturdiest CPU holder on the market. While its heavy-duty construction will easily accommodate oversized CPUs, it is equally at home protecting mini units from workplace hazards. A security option protects CPUs from theft or tampering.

## CPU450

The CPU450 offers a unique storage solution for the variety of CPUs found in today's workplace. Its clever and flexible design accommodates horizontal and vertical CPUs of most any size, and it can either be direct- or track-mounted to horizontal or vertical surfaces.

## CPU300

Offering all the protection and features of the heavy-duty CPU555, the value-priced CPU300 is perfect for most small and mid-sized CPUs.

## CPU Dolly

This clever design automatically adjusts to CPUs of different sizes. And the optional Pull Handle makes moving hardware from one location to another a snap. The CPU Dolly is the perfect choice for a stand-alone CPU holder.

## FEATURES AND SPECIFICATIONS

| | CPU600 | CPU555 | CPU450 | CPU300 | CPU Dolly |
|---|---|---|---|---|---|
| | Adjusts to fit CPUs 3.5" to 9" wide and 12" to 20" tall | Adjusts to fit CPUs 3" to 9.5" wide and 12" to 22" tall | Adjusts to fit CPUs 4" to 8" wide and 11.5" to 20" tall | Adjusts to fit CPUs 3.25" to 9" wide and 10.5" to 18" tall | Automatically adjusts to support CPUs up to 9" wide |
| | Designed to easily support CPUs weighing up to 30 lbs. | Designed to easily support CPUs weighing up to 70 lbs. | Designed to easily support CPUs weighing up to 40 lbs. | Designed to easily support CPUs weighing up to 40 lbs. | Adjustable base handle accommodates CPUs of any depth |
| | Slides smoothly on nylon glides in 16" track | Slides easily and smoothly on nylon glides in 16" track | Supports both vertical (towers) and horizontal CPUs | Slides smoothly on nylon glides in 16" track | Rolls easily on four 2" double-wheel casters to facilitate access to cables, ports and drives |
| | Rotates a full 360° for complete access to cables and ports | Rotates a full 360° for complete access to cables and ports | Can be mounted directly to underside of desk, wall or on 16" track with 360° swivel for complete access to cables and ports | Rotates a full 360° for complete access to cables and ports | Optional Pull Handle simplifies transportation of CPU from one location to another for servicing |
| | Fast and simple tool-free installation via Quick Lock technology | Easy-grasp handle facilitates access | Easy-to-install wrap-around design | Easy-grasp handle facilitates access | |
